

NERO ELECTRIC & HYBRID CARBONFIBER YACHTS 2023 / 2024

NERO YACHTS

777 *EVOLUTION*

CARBON MEETS ELECTRICITY FOR HIGH-PERFORMANCE EFFICIENCY

NERO Yachts relies on the perfect symbiosis of carbon fiber and electric propulsion systems. Through this innovative combination, not only lightweight construction, exceptional rigidity, and durability are achieved, but also an environmentally friendly alternative to conventional propulsion systems is created.

Always the individual
experience you need

With first-class comfort, innovative solutions, and our unique protected multi-function seats / sun-pads, you experience onboard luxury in its most beautiful form. Onboard the NERO 777 Evolution, enjoy the unparalleled combination of comfort, innovation, and the flexibility of over 6 different arrangements of bench/bed areas.

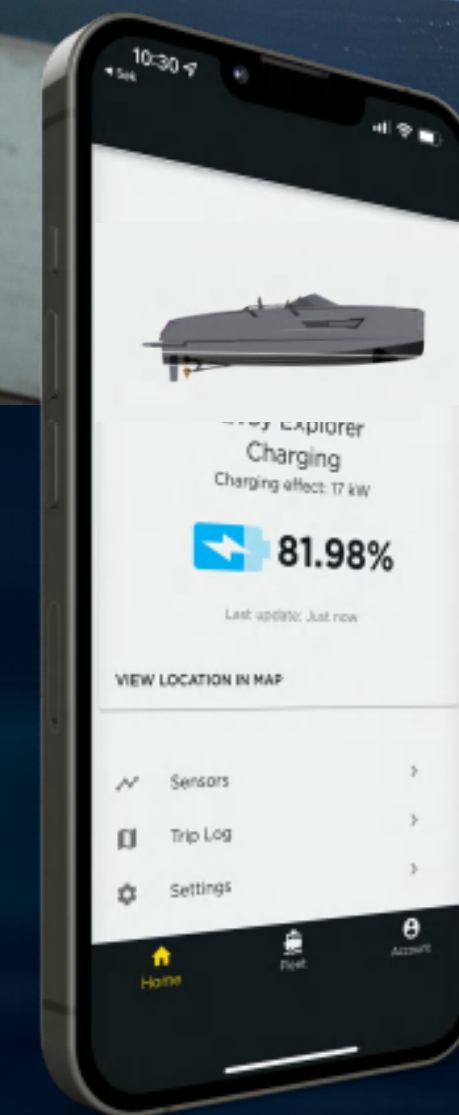

Perfection down
to the last detail

NERO Yachts creates yachts through dedication to detail that embody elegance, functionality, and sophistication. Whether it's about exquisitely designed interiors, intelligent integration of technology, or flawless finishes - NERO Yachts ensures that every aspect meets the expectations of our customers.

Immerse yourself in the world of Smart Boating. Thanks to high-resolution TFT touchscreens and advanced connectivity, you can tailor your driving experience according to your desires. With real-time status monitoring, you always have an overview of all essential information. With our intuitive app control, you maintain full control over your yacht no matter where you are.

Everything under control

Stay relaxed

The sun is the limit

Our generous sunshade solution, equipped with state-of-the-art carbon telescopic poles, impresses not only with its aesthetic appeal but also with its exceptional functionality. This design offers you the opportunity to precisely adjust the tilt angle and height of the sunshade to the sun's position. This way, you can enjoy the sun while effectively staying protected from harmful UV rays.

Dine and shine

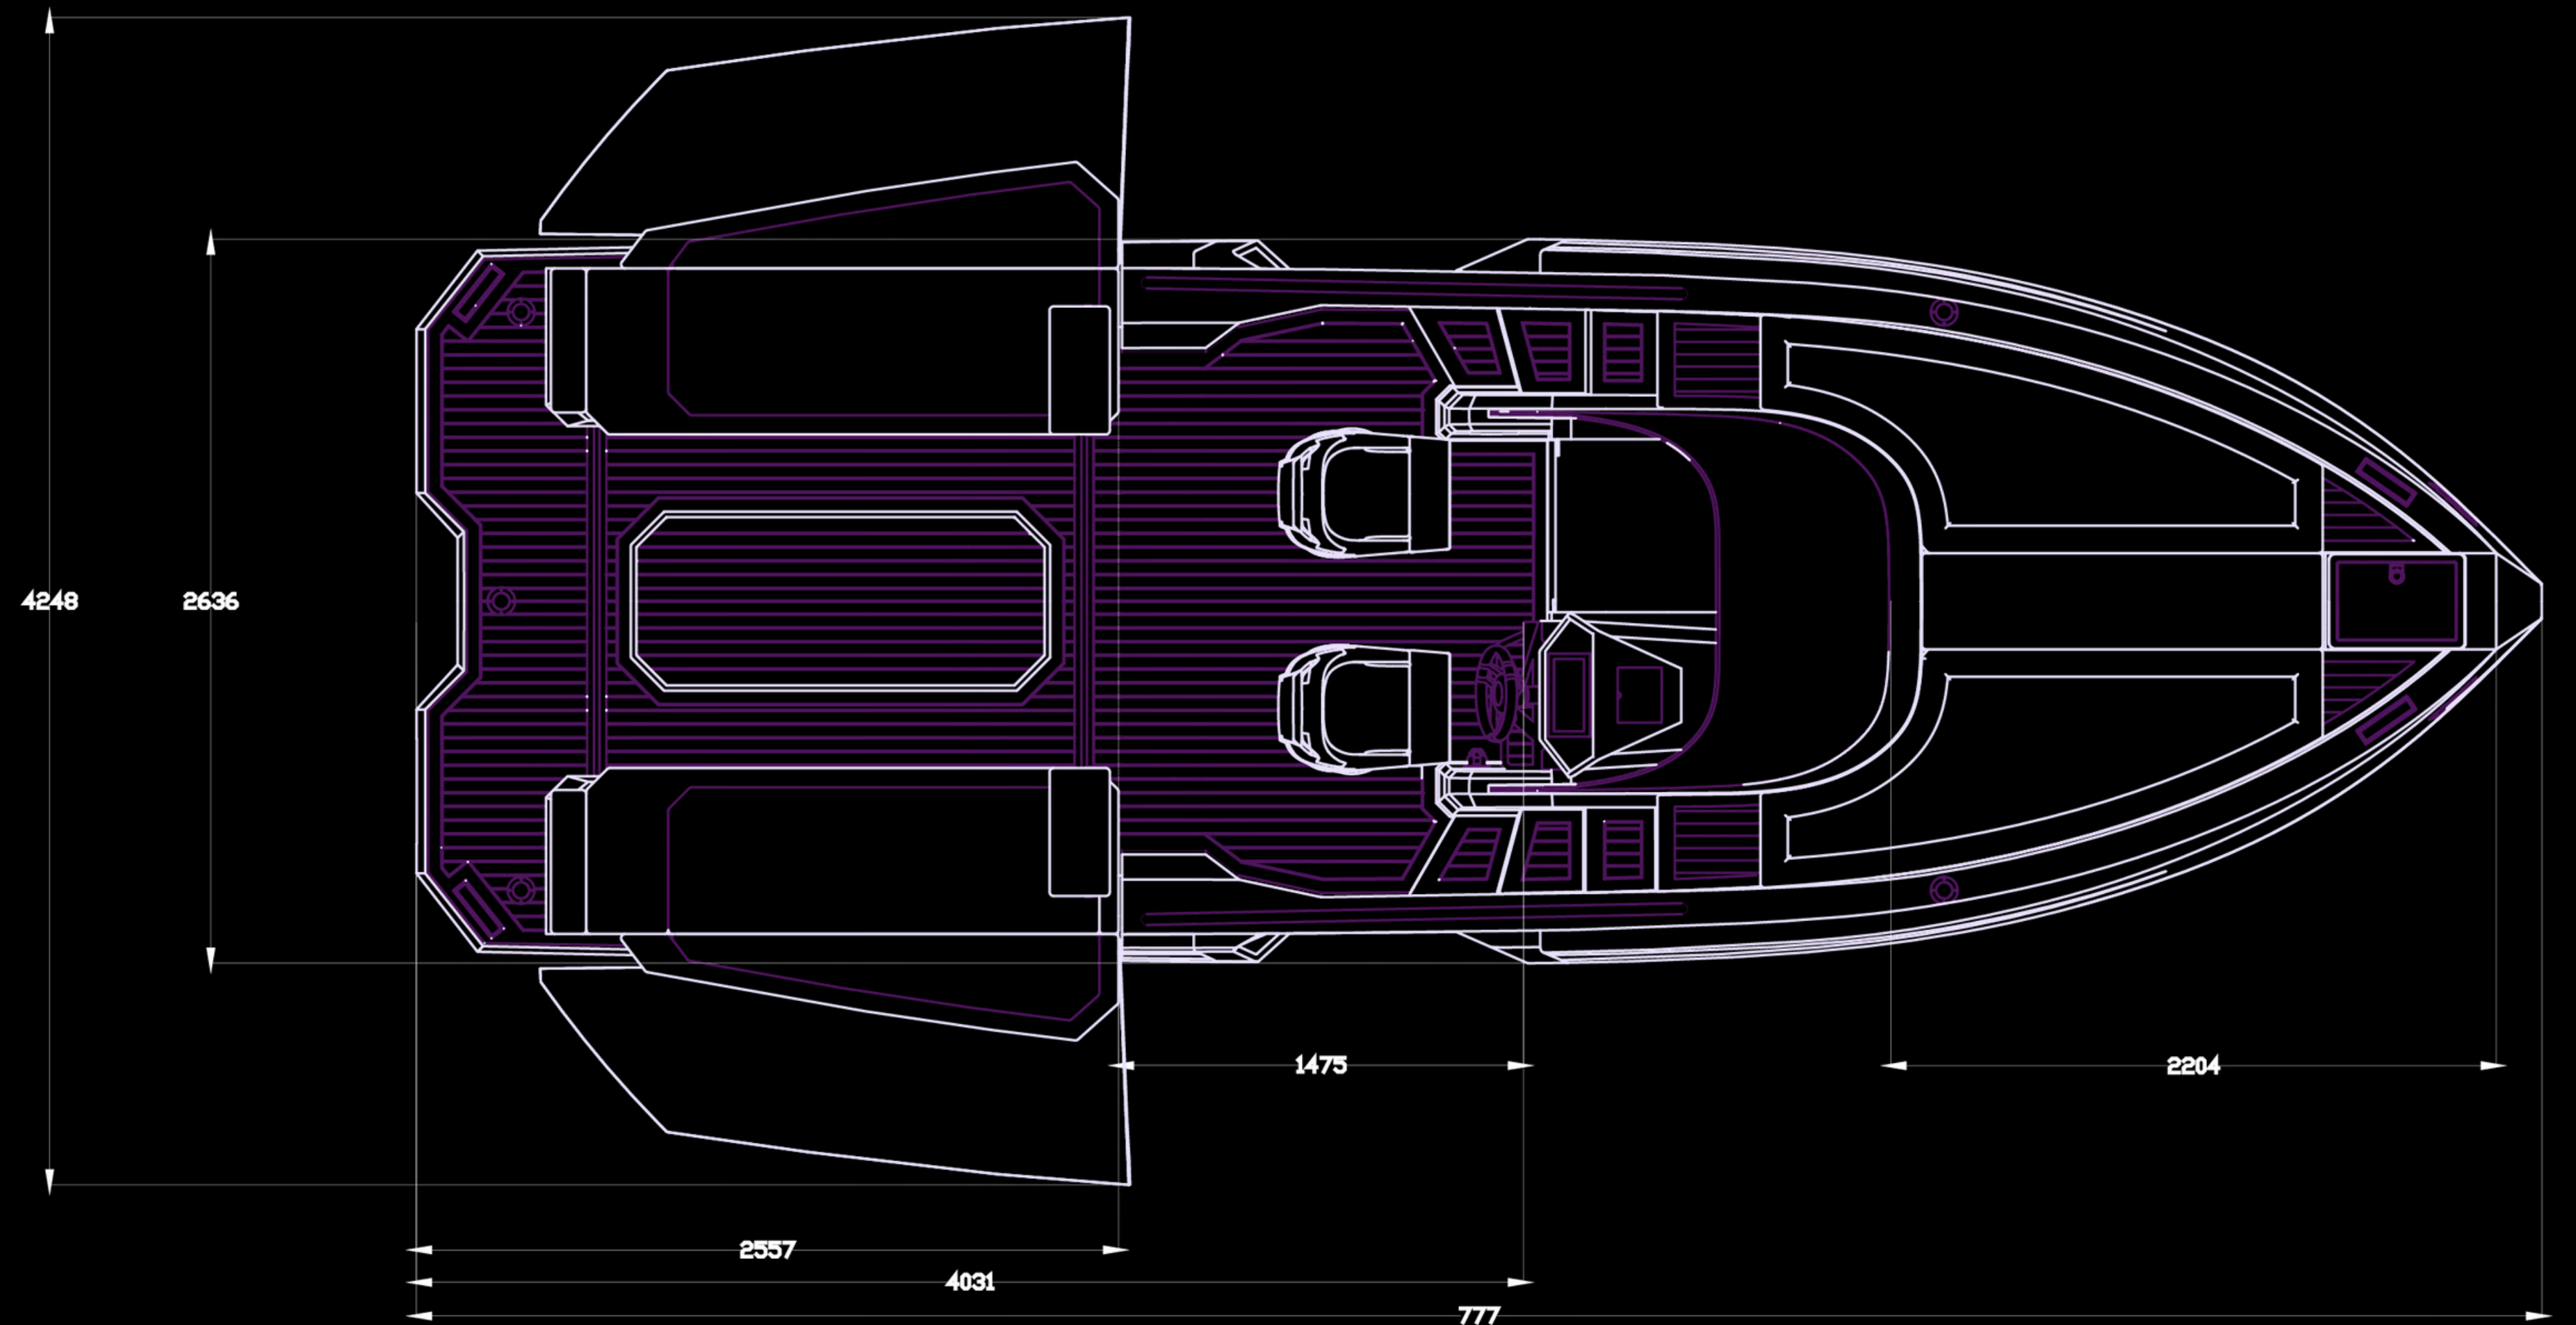

The Mid-Stern Table System of the NERO 777 Evolution sets new standards of practicality in its class. It enables effortless adjustments in the aft area of the ship, creating an elegant space for dining, relaxation, or meetings. With easy operation, you can raise, lower, or fix the table as needed. High-quality design and materials seamlessly integrate into the ship's concept, providing a premium combination of functionality and aesthetics.
